

Fourth grade students participated in the Junior Achievement Program.

We learned about resources, starting a business, income, expenses, and risks. Our two culminating activities included going to the Naples Ice Cream Factory and producing fourth grade trade fair. We discovered how businesses are run, made ice cream, tasted our "Fourth Grade Fantasy" creation and created our ice cream volcanoes! In addition, each student centered company sold items, at the trade fair, which were bought with Junior Achievement dollars.

Mr. Phil and Miss Wendy were our mentors, and Mrs. Spinelli welcomed us at Naples ice Cream Factory. What a wonderful way to be active learners and love what we are doing!

Participating in the Junior Achievement "Game": Income, Expenses, and Risk
